Description of the incident

So I just got in an accident a few minutes ago while driving on Lens Street The kind front of me came to a certain stop and, disappeared hitting the brakes, I couldn't go further'm the collision So, my cost front bump is smashed and the headlights are broken and there's an noticeable dent on the hood the other cost rear bump was damaged and thankfully no one was injured I have already cought the police and they're on the way to Tokyo with the incident It happens so quickly that I didn't have enough time I am to react but I made sure to move both cars to the side of the road to avoid Jung in the traffic
